WHOLESALE GARDEN SEED PRICE LISTS.

Happy New Year

SEEDS ARE VITAL TO ASSURE VICTORY

Our war job is clear. It is to maintain an adequate supply of vegetable, field and grass seeds and to make them available when and where needed.

Britain after two years at war still classes in "GROUP 1", for deferment from military service, workers in "AGRICULTURAL AND VEGETABLE SEED PRODUCTION, INCLUDING WAREHOUSING." This should give us some idea of the importance of an adequate and uninterrupted supply of seeds, when a country, hard pressed by two long years of war, still considers a worker in the seed industry more valuable to his country at his regular job than in the military service.

Regardless of whether similar action is taken in this country or not the flow of seeds must be maintained and your job in maintaining this flow is vitally important.

"FOOD FOR FREEDOM"

This is a new slogan which the Government will use to emphasize the need for increased food production. Vegetables, meats, dairy products and other high vitamin foods will be emphasized. Be prepared to supply Keystone Seeds to your customers for this increased production: Vegetable seeds for commercial crops and home gardens, legumes and grasses for meadows and pastures, Keystone Hybrid corn for bumper corn crops. Order early and have the seeds ready when your customer needs them. Let him know you have them. Keystone store signs will help. Ask for them when you order seeds. An ad in your local paper will help. Ask us for the proof sheet of free newspaper mats of Keystone seed ads.

GARDEN SPRAY

(T. M. REG. U. S. PAT. OFF.)

THIS IS THE ONE

If you could sell or use only one insecticide for Vegetables, Flowers and Fruits, This IS The One.

Highly concentrated, this new, safe, super-powerful liquid spray presents the wonder working properties of Rotenone and Derris in a new patented form; Activated, Stabilized, Scientifically Compounded, and far more Effective.

Dilutions vary from 1 part in 200 to 1 part in 1,000.

Triple Kill is harmless to persons or animals if spilled on skin and may be sprayed on edible fruits and vegetables without leaving a dangerous poison residue.

No soap or spreader necessary; mixes readily with either hard or soft water.
